

BEST EUROPEAN OAK WOOD TYPE FOR MAKING BARRELS AND SLAVONIAN OAK STICKS

EUROPE - CROATIA - SLAVONIAN OAK

Pepel Co oak sticks are made exclusively from Slavonian oak, sourced from mixed forestes throught Croatian region Slavonia. Only the two species of oak suited for oak staves and sticks production are used, Quercus Petraea and Quercus Robur. There are same species of oak found growing fourteen hundered miles west of Slavonia in the forests of France. Left in the open air, for a minimus of 2 years the oak staves for sticksproduction are naturally seasoned by wind, sun and rain.

Harish tanins, esters and other impurities are purged out during this proces.
Consequently, our oak sticks are produced from top quality staves with best level of toasting with superior flavor !

Time of aging proces for all alcoholic beverages is 2 months.

Price per 1 kg for 150 Liters = 10,00 eur + worldwide delivery
